

The Oddballs of Our Story

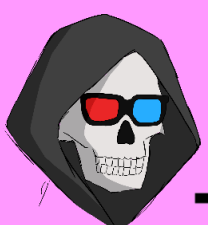

☠ **Grey (24)** – My best buddy in the world and someone that has more problems than he does bones in his body. Issues of repression, short-sightedness, ego et cetera, et cetera. Regardless of that, the dude cares for his friends, more creative flair than Ric Flair has feuds and he's honest, maybe not with himself, but he can speak his mind.

☠ **Charon (∞)** – The august, immortal hero himself! Now other than my great exploits, what to say about myself? Good qualities, I'm good on the uptake, can kick some ass and can really shred a guitar. Bad qualities ... slightly lazy, impulsive and, ugh, maybe crass at times?

☠ **Heat (Late teens)** – Attempting to exhibit the 'cool as ice' persona, the name fits like a glove. Heat's a hot-headed pretty boy that prefers the quick and easy approaches. Raised to be a demon hunter, Heat follows a rigid code of honour and rule. He's fun to wind-up too.

☠ **Violet (26)** – ~~Hot with nice bazoockas~~ ... (ok, I've just been informed by HR and our legal team my previous description is "reductionist" and "sexist").

☠ **Violet 2.0** – Grey's neighbour and childhood friend; Violet's supportive with a chipper personality though when provoked she's as destructive as a storm of razor blades. She ends up getting targeted by an insane cult and splits her soul to create a tulpa to aid Grey who goes by Ikari.
